

Yangon, Myanmar 17 May 2008

Dear Friends,

Thank you once again for your support, your prayers and your concern. It is greatly appreciated and is a real encouragement to us here. Here is the latest news of our continued aid distribution.

We have been privileged to work with the organization Feed The Hungry who donated four water purifiers for use where dirty water is still being used for drinking, washing and cooking. The local people were amazed as the brown, dirty pond water was transformed into clean, pure drinking water. Even the taste and smell was good! Clean water has been a very urgent need and cases of water-born diseases are sure to lessen.

Through UNHCR we received dried noodles, Ovaltine, bags of rice and fish. We were able to distribute these to those in most urgent need and, again, our help was keenly accepted. We have also been given 500 cooking pots so now some people, who weren't able, are now able to cook in their homes again.

We have also begun to build temporary houses for those whose homes were completely destroyed to provide much needed shelter from the storms that come most nights and to give them some semblance of normality. Later our desire is to help build better, more permanent homes for these people.

Despite all the great things we have been able to do some people are still living in very bad conditions with little shelter from the weather. They are still struggling for food, but we are committed to continue helping these victims and trust that our God will continue to lead us to be the most effective.

Thank you for all your help. Keep praying for us here. God Bless.

Rev. Dr. Dam Suan Mung, Senior Pastor.
