

Through DCI, Bunches heard about 87 blind refugee families in Liberia who were sleeping like animals in the dust because they did not have any beds. We sent a gift to buy quality foam and textiles to make mattresses. The manufacturing was done by local men and women from a Monrovia church all free of charge and the 87 beds were delivered.

No words can begin to express the thanks and the tears of these poor men and women when they realised that people thousands of miles of away cared about them. They send a big thank you to everyone at DCI and Bunches for changing their world. *[Pastor John Duco, Monrovia, Liberia]*
