On World Aids Day Dec 1st, 2006. I was struck down with a flu like sickness and was not able to move off my bed I was in high fever and thought I was about to die. I prayed to our Lord Jesus and asked Him to make me well enough to do our first outreach to the Karen Hill tribe people group. The following day the 2nd, December we had to leave for a journey more than 200 kilometers away. The next day the fever had broke by 50% but I was still to sick, but determined that the illness or the enemy was not going to stop this from happening. We had already pre-arranged this event with local Karen church to take the message of Christ to the entire village.

We Christmas Caroled at more than 200 homes it was during the evening of the 2nd, December when our Lord Jesus empowered me to stop at a home of a 14 year old boy. At first I thought I had taken a wrong turn, everyone else "well over 100 people" in our Christmas Carol group was walking in a different direction towards another home. I ended up at the front door of the child.

Brother Les as soon as I put my foot on the front door step something magical happened. I was hit/empowered by the Holy Spirit. I can only describe it as like a beam of light with full power switched on, a little like, a beam of laser light you may have seen in the movies, which comes from flying saucers. I was so moved by compassion and had to go in and pray for him, but I had no idea why I was to pray for him or what I should pray for him about. Our FSOJC DTS students, the boys parents and I all went to lay hands on the child and as we started to pray the rest of the group was soon redirected and joined us singing Christmas Carols by the doorway as we prayed. After we finished our prayers. The Child's father told us his son had suffered since birth with some form of cancer of the blood.

After we had stopped praying, there seemed something different about this boy but I am not sure what exactly had taken place. The boy was glowing, he just looked different. I feel that if a miracle had not happened right then, then surely a miracle will happen very soon **AMEN**.

Christmas Celebration for the Poor and Unreached. Sponsored by DCI Trust, England

On Sunday Dec 3rd, 2006 after preaching in the Karen church, I was invited by the Karen Hill tribe Head Pastor to go and pray for a young lady who was apparently suicidal and had not attended church in over three month's. When we arrived at her home she was in a corner of her room crying and extremely disturbed. Her hair seemed matted and she was suffering from head to foot with chronic psoriasis. She was in a super chronic depressed and very frightened state of mind. She looked like she was demon possessed. I was still sick and only had 20% of my own strength after the mystery illness the day before coming to this village. My voice was also affected and I had almost lost it having to really strain myself to be heard. Brother Les the moment I placed my hand on her I was empowered with the Holy Spirit and the Lord started to use me big time.

We prayed for over 20 minutes. Later around 3:00pm the church held its youth church service and in she walks. I was so moved she was like a different person Les, she was glowing and clean and beaming with smiles. She had been delivered from the demonic possession . She still had her Psoriasis but she was alive just beaming with light and the life of Christ was in her. The Pastor couldn't stop looking at her and others in the church was equally moved by what they were seeing. I thank and praise the Lord Jesus for this miracle of healing and freedom from demonic possession **AMEN.** **"Many more events to go, this is just the start. Please pray with us"**
